

University Hospitals Clinic

Herrick Archives Number 300

A. IDENTIFICATION & LOCATION

1. Name

1.1 Never officially named by Board of Trustees action.

1.2 Alternate names noted:

Built as "Ambulatory Patient Teaching Facility".

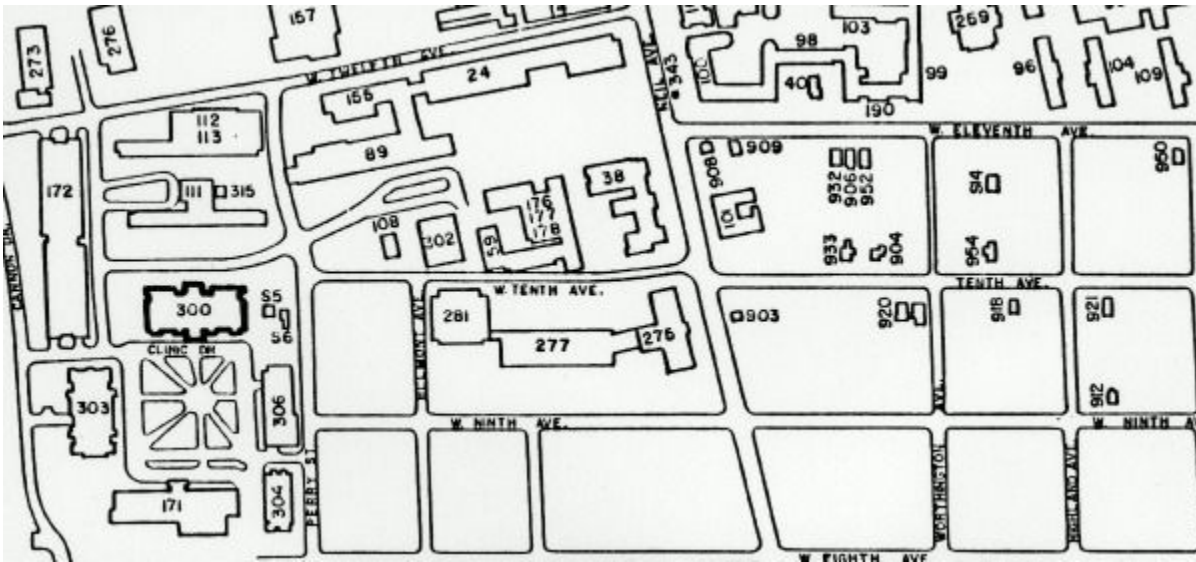

See Addendum No. 1

2. Location

2.1 Located at 456 Clinic Drive. See map below.

See Addendum No. 1, 3

2.2 For greater detail, see Sheet 115 in the book of campus maps in the University Archives.

For identification of other buildings shown, see Appendix A.

3. General Description

3.1 Type of construction:

Steel frame with brick exterior.

3.2 No. of stories:

Basement and eight floors.

3.3 Increments of construction:

No additions.

3.4 Present area of building as shown in inventory records of Division of Campus Planning:

224,877 sq. ft. gross; 141,330 sq. ft. net assignable

See Addendum No. 2

B. PLANNING & CONSTRUCTION

1. On March 5, 1971 the Board of Trustees approved the plans and related documents prepared by Dan A. Carmichael and authorized the solicitation of bids by contractors.

2. Bids were received on May 4, 1971 (T).

3. On May 7, 1971 the Board of Trustees awarded contracts to the following contractors:

General: R. W. Setterlin & Co.

Electrical: Electric Power Equipment Co.

Heating, ventilating, & air conditioning: Limbach Co.

Plumbing: Gesling Co.

4. The laboratory case work was re-bid on July 15, 1971 and the Board of Trustees on September 2, 1971 awarded the contract to Kewaunee Scientific Corp.

5. Completion and occupancy:

5.1 The building was released for use as of May 1, 1974.

5.2 Some doctors apparently saw patients in the building during May, but the general clinic use began on or about June 15, 1974.

C. COST

The contracts awarded in May and September of 1971 totaled \$9,550,300.

ADDENDUM NO. 4 Renaming of 5th floor

On November 1, 1991 The Board of Trustees resolved that the fifth floor of the University Hospital Clinic was to be named "The William H. Havener Eye Center". This would reflect that the entire floor is devoted to the Department of Opthamology. Havener was the first full time faculty in the Department of Opthamology and served as the chairperson for 27 years. He developed the technique for repairing retinal detachments and it is still the safest and most widely used method today. Under his leadership, residents of OSU's Department of Opthamology were ranked number one in the country by the American Academy of Opthamology in 1991.
